Fellow Broadcasters:

I thought you would like to know that you were "bombing" into New York City on Sunday May 2nd just after midnight. I picked you up loud and clear just after WGLI in Babylon signed off.

Not too bad a signal with 305 watts I might add. I thought you'd like this additional information on your signal radius, it might help you to sell some more ads.

R.S.V.P.

Cordially,
